## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101***

#### **35 U.S.C. 101 reads as follows:**

**Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.**

**Claims 1, 3-6, 10, and 11 are rejected under 35 U.S.C. 101 because**

the claimed invention is directed to non-statutory subject matter. Claims 1 and 10 positively claim the nose. Thereby stating that the nose has adhesive on it which closes the nose, not that the adhesive is on the sheet material which sheet seals a user's nose. As now claimed it is the nose that has adhesive, however based on the disclosure the sheet is an adhesive sheet member with adhesive on the entire sheet member, which when placed on a user it is the adhesive sheet which adheres around a user's mouth and totally adheres to the nose of a user thereby closing a user's nose.

### ***Claim Rejections - 35 USC § 112***

#### **The following is a quotation of the first paragraph of 35 U.S.C. 112:**

**The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.**

**Claims 1, 3-6, 10 and 11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement.** The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The new limitation of, "including adhesive around the nose..." is not supported by the disclosure, thereby

Art Unit: 3743

raising an issue with possible new subject matter because the disclosure does not provide support for the nose of a user to have adhesive.

***Response to Arguments***

Applicant's arguments with respect to claims 1, 3-6, 10 and 11 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
